Precision Index Plungers · with cylindrical pin
22130.0070

Product Description

Precision index plungers together with bushings are a perfect combination for quick positioning and mounting.
The precise tolerance of both, the precision index plunger and the bushing, guarantees a high repeatability of these two elements.

Material

Pin
- Case-hardened steel, case-hardened, blackened and ground

Bushing
- Case-hardened steel, case-hardened, blackened and ground

Body
- Case-hardened steel, case-hardened, blackened and ground

Ball knob
- Thermoplastic, greyish black

Assembly

For precise adjustment, the grip ball and plunger should be glued grease-free after assembly. Detailed assembly instructions can be downloaded as a PDF file under "Documents".
Operation

When using locking index plungers the knob is pulled out and turned 90°.

More information

Notes
Bushings must be ordered separately.
