

Locating Bushings, plain • for lifting pins

22350.1916

Product Description

Locating bushings are used for quick and safe locating of lifting pins EH 22350 / EH 22351. This design is suitable for applications which require installation flush to the surface. A face wrench is required for installation. As an accessory, we offer a standard adjustable face wrench, offset, and a face and socket wrench. In combination with a socket-wrench/screwdriver, the face and socket wrench is especially suitable for use if space is restricted. Corrosion and abrasion resistant.

Material

- Stainless steel 1.4542, precipitation-hardened

Assembly

Safe tolerances and consistent function. Easily incorporated into different materials. Bush can be easily installed via optional assembly tool. Can be mounted in blind holes. For thin-walled parts, lock nuts are used for assembly.

Drawing

size M16/M16x1,5/M20
