

SIMPLEX soft-face mallets • Superplastic; with cast iron housing and high-quality wooden handle

3007.060

Product Description

The SIMPLEX series 3007 is equipped with the superplastic insert (series 3207) on either side. This Halder top seller is a medium hard plastic insert made of extruded and extremely homogeneous material. Compared to injection moulded plastic inserts, it is therefore considerably more wear-resistant and durable.

Made of cast iron, the housing comes with an integrated handle protection sleeve that provides for a high level of break resistance.

Damping vibrations and shaped ergonomically, the high-quality wooden handle has a double coat of varnish in the grip area and is thus resistant to dirt.

In line with the smart SIMPLEX principle, all components are replaceable and can be retrofitted. This translates to savings in both money and resources.

This version is available in sizes ranging from D30mm to D80mm and as a sledge hammer with inserts that can be up to 140mm large (3007.081, 3007.100, 3007.125, 3007.141).

The D80mm version is also available with an extra short handle (Art. 3007.082).

Product features:

- SIMPLEX soft-face mallet with superplastic inserts on both sides (white, medium hard, very durable).
- Cast iron housing with integrated handle protection sleeve and excellent break resistance
- High-quality, vibration-damping, and ergonomically shaped wooden handle; grip area with double coat of varnish (resistant to dirt).
- All parts can be replaced / retrofitted, resulting in great savings in cost and resources.
- Available in sizes ranging from D30mm to D80mm and as a sledge hammer with inserts that can be up to 140mm large.
- D80mm available with an extra short handle (art. no. 3007.082)
