

Housing for SIMPLEX splitting maul

3011.160

Product Description

This cast iron housing has been developed specially for the SIMPLEX splitting maul. It comes with an integrated handle protection sleeve, protecting the handle in case of mis-strikes. Robust and dampening vibrations, the housing is very durable and offers excellent break resistance - not least thanks to its wear-resistant powder coating. Its weight of 1,900g makes the splitting maul more top heavy and thus contributes to great splitting action.

Only SIMPLEX splitting maul spare parts may be installed into this housing!

An upgrade to this version translates to savings in both money and resources.

Product features:

- Cast iron housing for SIMPLEX splitting maul.
- With integrated handle protection sleeve.
- Excellent break resistance.
- No chipping.
- Vibration-dampening.
- With wear-resistant powder coating.
- Very durable.
- Its weight of 1,900g provides for the great top heaviness and good splitting action of the splitting maul.
- Can be retrofitted, resulting in great savings in cost and resources.
- Only SIMPLEX splitting maul spare parts may be installed into this housing!

Material

Housing

- Cast iron
