

## Spring Plungers • with ball and slot - INCH

### 2B050.0331

#### Product Description

To be used for positioning, indexing, locking, latching as well as for other similar pressure applications.  
Spring plungers can be used for locating or for applying pressure, as a detent or for ejection.

#### Material

##### Body

- Stainless steel 1.4305 (ASTM-A-582)

##### Ball

- Stainless steel, hardened

##### Spring

- Stainless steel

#### Characteristic

Standard spring load: no marking

Light spring load

Standard spring load

Heavy spring load

#### More information

#### Notes

Customized design on request.  
Spring plungers are specially tested for spring range and forces.

- This product is manufactured in INCH dimensions.

#### References

A conversion table can be found in the technical data following these product information pages.

Thread lock: polyamide spot coating (for details please refer to the technical appendix).  
Calculation of indexing resistance, please refer to appendix - Technical Data -
