

BASEPLEX soft-face mallets · Cellulose acetate / cellulose acetate with zinc die cast housing and wooden handle

3906.040

Product Description

While representing the price entry model in the product line, the BASEPLEX undoubtedly lives up to Halder's high quality standards.

The BASEPLEX soft-face mallet series 3906 is equipped with cellulose acetate inserts on either side. The red insert is both hard and oil and grease resistant.

Made of high-quality zinc die-cast, the body comes with an overstrike protector and a technically advanced holder for the inserts.

The wooden handle is ergonomic and varnished. The inserts and the handle are replaceable. This version is available in sizes ranging from D25mm to D50mm.

Product features:

- BASEPLEX soft-face mallet with cellulose acetate inserts (red, hard, oil and grease resistant) on both sides.
- Price entry model of the product line with accustomed Halder quality.
- Made of high-quality zinc die-cast, the body comes with an overstrike protector and a technically advanced holder for the inserts.
- Ergonomic, varnished wooden handle.
- Inserts and handle are replaceable.
- Available in sizes of D25mm to D50mm

Application Areas

Versatile use, for ordinary use

Material

Handle

- Wood

Inserts

- Cellulose acetate, red
- hard
- Oil and grease resistant

Housing

- Zinc die-cast
